kasaragod, Kerala - 671312, India

PROFILE

Versatile and Results-Driven Software Engineer with a solid foundation in Computer Science and Engineering. I bring over a year of experience in modern frameworks like React, Next.js, and AngularJS, with a focus on designing and optimizing technology solutions that meet client needs. My strong technical acumen and ability to craft intuitive user interfaces enable me to contribute effectively across the software development lifecycle. I am eager to leverage my skills to deliver scalable solutions, embrace new technologies, and tackle complex challenges.

EXPERIENCE

- Skien Labs**  AUG 2023 - present
Full stack Developer Thiruvananthapuram, India
 - Designed and implemented responsive, user-friendly interfaces using modern **JavaScript frameworks**, achieving high client satisfaction with seamless user experiences.
 - Integrated third-party APIs and libraries** to expand functionality and improve user experience, demonstrating adaptability and technical versatility, with a continuous focus on learning new technologies such as J2EE.
 - Achieved a 40% reduction in application issues by employing advanced **debugging and problem-solving techniques**, contributing to stable and reliable software delivery.
 - Utilized **SQL Server** for database management, creating and optimizing queries.
 - Maintained web applications using **ASP.NET** and mobile applications with **AngularJS** and **Apache Cordova**, ensuring smooth operation and up-to-date functionality.

EDUCATION

- P A College of Engineering** Aug 2018 - July 2022
Computer Science and Engineering Mangaluru, India
 - CGPA: 7.80/10.00
- GHSS Pilicode** Jun 2015 - March 2017
Pre-University Education Payyanur, India
 - Grade: 80.0%

PROJECTS

- Fdor** Aug 2024 - In Progress 
Tools: [Reactjs, Nextjs, Firebase, GoogleMapsAPI, TailwindCss, Redux toolkit, Git]
 - Developed a robust web application using **React and Next.js**, optimizing performance through **Server-Side Rendering (SSR)** and **Static Site Generation (SSG)**, enhancing user experience and SEO.
 - Streamlined state management with **Redux Toolkit**, ensuring efficient data handling and responsiveness, meeting high-quality coding standards.
 - Integrated **Google Maps API** for advanced location-based features, and utilized **Firebase** for secure, scalable authentication, aligning with industry best practices in cloud-based solutions.
 - Managed version control and collaboration effectively using **Git**, adhering to agile methodologies and continuous integration practices.
- Evently** Jan 2024 
Tools: [Reactjs, Nextjs, MongoDB Atlas, Clerkjs, TailwindCSS, Git, Vercel, UploadThing]
 - Built a user-friendly platform for creating, managing, and updating events.
 - Leveraged MongoDB Atlas for scalable database management and Clerk.js for user authentication
 - Integrated secure payments with **Stripe**.
 - Used **Git** for version control and collaboration, and deployed the application on Vercel for continuous integration and delivery.
 - Utilized Uploadthing for efficient image storage and management

SKILLS

- Languages:** Javascript, HTML/CSS, Typescript, jQuery, C#
- Developer Tools:** VS Code, Visual Studio, MSSQL Server, SSMS, Google Cloud Platform, Android Studio
- Technologies/Frameworks:** ReactJS, NextJS, AngularJS, ASP .NET Core MVC, AzureDevOps, GitHub, Redux, TailwindCSS
- Troubleshooting and Management:** Troubleshooting and Debugging: Issue identification, Agile Methodologies: Project management, Problem Solving Skill
